What we do

Bulk Discounts
Worldwide Delivery
Logistics
Advice & Support

We work with the biggest and best IB book publishers around the world, such as Oxford, Cambridge, Hodder and Pearson, and stock imported titles from Haese Maths, IBID Press and more.

Offering competitive discounts across all titles from IB, IGCSE, Cambridge exams, and further down the school. We take the stress out of book buying and can send you one bulk shipment and invoice for all books and departments.

www.ibbookshop.co.uk

Our partners
Consolidate
your orders

Worldwide Shipping

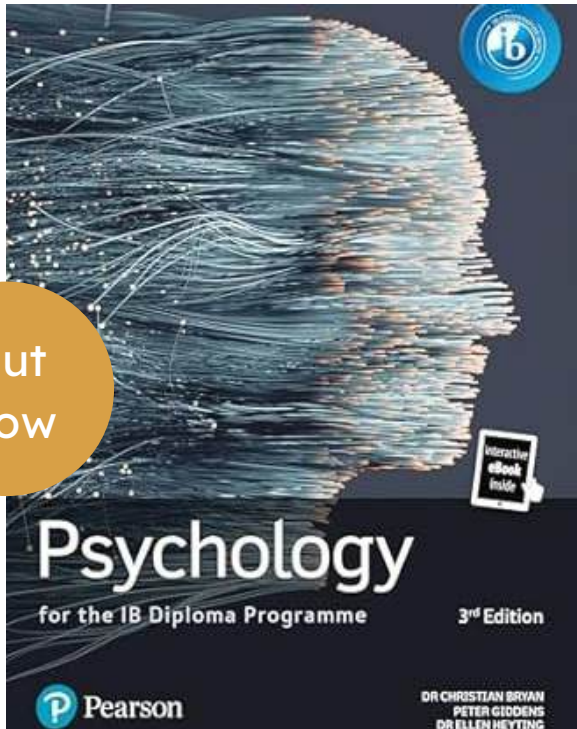

Trusted couriers, pallet shipping, customs and paperwork

We send your order fully tracked using our courier partners DHL and UPS and a delivery cost will be added to your invoice. For larger deliveries we work with several specialist freight companies to offer customers complete satisfaction from the time you place your order to when you receive it. We will liaise with these companies to handle the customs paperwork on your behalf. If you are in Europe, most destinations allow a DDP (Delivery Duty Paid) service.

April

Computer Science for the IB Diploma

Hachette Learning

9781036009007

Turland, Ganea, Baumgarten

- Developed in cooperation with the International Baccalaureate
- Ensure students gain clarity, confidence, and an in-depth understanding to master the updated Computer Science syllabus for both HL and SL.
- Provide complete coverage of the latest syllabus set for first assessment in 2027 with a student-focused resource written by experienced educators and examiners.
- Empower students to navigate their coursework with confidence through an engaging, inquiry-based approach that emphasises conceptual understanding.
- Build confidence through engaging practical activities, chapter summaries, and targeted review questions that are designed to create a deep understanding of the subject matter.

DP Computer Science

Fully updated for 2025 syllabus

IB DP Computer Science Course Book

Oxford University Press

9781382063920

MacKenty, Stephenson, Abela

- Published in cooperation with the IB so you can be assured the content is aligned, reviewed, and approved
- Full syllabus coverage of the 2025 subject guide, including SL and HL
- Focus on both knowledge and skills with high quality content created by experienced IB authors, examiners, and teachers
- Prepare learners for assessment with worked examples, activities, formative practice questions and end-of-topic tests that support learners new to computer science
- Enable rich understanding of code for students new to programming or developing their skills: fully accessible code across both Python and Java features throughout the book, with syntax highlighting to ensure easier readability, as well as a dedicated 'advice for new coders' section
